

Free Super and Insurance Advice Service

1. Need Help?

- Many people don't know they can claim disability benefits from their super or insurance.
- If your work is cut short because of an injury or illness, you won't have enough super to live off. Any extra disability benefits will help a lot.
- If you have any disability insurance policies, it's important to maximise the benefits you can claim.
- Many people might also have questions about how to claim superannuation death benefits.

2. Where Can I Get Help?

- A free Super and Insurance Advice Service has been set up to give legal advice to people with an injury or illness and others.
- Call Maurice Blackburn on the Disability Helpline 1800 196 050 for free legal advice.
